- Patented Metabolic Analyzer FDA listed.

Body Composition

- Weight Loss
- Diabetes
- Sports Nutrition
- GI, Cardiac
- Paleo
- Menopause
- PCOS
- Gluten Free

 **The American Journal of
CLINICAL NUTRITION**

 **USC University of
Southern California**

 **FDA**

 **NIH**

Metabolic Testing

- Fatty Liver
- Cancer
- Weight Gain
- South Beach
- Mediterranean
- Ketogenic
- Pain Mgt.
- HCG
- BHR, TRT & HGH

The results suggest that the 4 electrode upper and lower impedance testing has a plus or minus 2% accuracy as compared to the hydro-static tank. Retest accuracy, retesting on the same patient is approximately plus or minus ½ % accuracy which is more accurate than DEXA testing, the gold standard.

Designed by Clinical Nutritionists and Licensed Dietitians with Physicians who have trained over 900 physician offices nationwide, in the past 30 years.

Meal Planning Software Features
